Re: Surety Arrangements  
Martin-Marrietta Cement Company  
Western Division  
Leamington Cement Plant  
Leamington, Utah

Dear Mr. Taylor:

The Utah State Division of Oil, Gas and Mining is presently reviewing the proposal of Martin-Marrietta Cement Company to build a cement plant at Leamington, Utah on State and Federal land in Fishlake National Forest. The Division would like to proceed with its review on a joint basis with the Forest Service. Towards this end the Division has contacted Mr. Lynn Findley from your office regarding the reclamation surety estimate prepared by the Fishlake National Forest for this operation. Mr. Findley indicated that the Forest Service has estimated that a surety of \$386,000.00 would be necessary to reclaim the roads, quarries, and plant site proposed. This estimate was prepared including areas located on fee or State lands which should be bonded by the State of Utah.

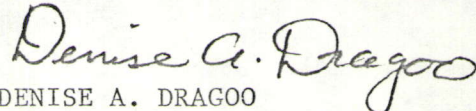

Mr. Kent Taylor

Page Two

To facilitate joint State and federal cooperation on this proposal, the Division would like to enter into a cooperative agreement with the Forest Service regarding the release of the bond on this project. The Division proposes that the bond be held by the Forest Service until reclamation is completed in a manner acceptable to both the Forest Service and the Division. Hopefully, this arrangement will allow the company to be bonded pursuant to a single surety arrangement for the reclamation of a site which contains both Forest Service and State lands.

If this arrangement is acceptable to the Forest Service, please contact me as soon as possible.

Sincerely,

A handwritten signature in cursive script that reads "Denise A. Dragoo".
